

CLC CLASSES
SPRING 2022
NONCREDIT COURSES

College  Lake County
Connect to Your Future

CHANGING *lives.*

DID YOU KNOW...?

There's a new quick and easy way to sign up for noncredit courses

Ahead of the fall 2021 semester, CLC launched an intuitive registration system for noncredit classes. This platform was specifically developed to enhance your experience through an improved and modernized enrollment process. To browse and register for noncredit courses, visit <https://learn.clcillinois.edu>

CLC has Guaranteed Transfer Admission (GTA) partnerships with 33 colleges and universities

Based on the strength of our academic programs, our GTA partners guarantee admission to CLC students who meet specific requirements. Students gain peace of mind knowing they will be admitted, plus they receive personalized academic advising from both schools, all while saving money. To learn more, visit www.clcillinois.edu/gta

You can earn free college credits while still in high school

Dual credit courses are free CLC courses that are offered to high school students through agreements with individual school districts. Students interested in taking a dual credit class can contact their high school counselor or CLC's P-20 Educational Partnerships Department at (847) 543-2030. Read more at www.clcillinois.edu/dualcredit

CLC's Career and Job Placement Center (CJPC) provides valuable services to students and employers

CJPC provides CLC students with resources to prepare for their future careers and employers with a high-quality talent pipeline to strengthen their organization. Through job fairs, internships and apprenticeships, CJPC makes mutually-beneficial connections between employers and job seekers. For more information, visit www.clcillinois.edu/cjpc

You can become a truck driver for free

The College of Lake County Foundation is pleased to announce an emergency gift of \$110,000 from a generous anonymous donor to put 25 licensed truck drivers on the road as quickly as possible to grow the Lake County economy and address our nation's supply chain challenges. Apply for one of the full-tuition scholarships available immediately and get the training you need quickly to start a career with a family sustaining wage.

www.clcillinois.edu/cdl

Summer camp registration opens March 15

CLC has exciting summer camp offerings for youth and teens. Summer 2022 camps will begin in June and consist of interactive academic enrichment experiences for students in grades 1-8, as well as career exploration experiences for teens in grades 9-12. Early registration is recommended to secure a spot in the camps of your choice. For updates on this summer's camp offerings and registration, stay tuned to <https://learn.clcillinois.edu>

Arts, Digital Media and Communications

Put your creative energy to work and explore these offerings that will help you express your best ideas.

Digital Media Design

These are co-listed classes and originated as “for credit courses” that students on a degree track can take for credit. We are opening up the classes for those who would like to take the courses, but do not wish to earn college credits. The classes will be graded pass/no pass.

ADOBE ILLUSTRATOR: LEVEL 1

Draw and manipulate simple shapes to create logos using advanced tools. Combine text and graphics to create dynamic advertisements.

7647 PCTR 65-001

Tuesday, January 18 to February 15
6-8:50 p.m.
5 Sessions
Online Live Zoom
\$205 E. Lopez

PHOTOSHOP CREATIVE CLOUD: LEVEL 1

If you are a professional who wants to prepare photos for print or web or enhance graphics for marketing materials, newsletters, blogs and websites, this class will help get you started. Learn key techniques for working in Photoshop such as how to correct, enhance and distort digital images and create image composites. You should be familiar with the basic functions of your computer’s operating system such as creating folders, launching programs and have basic skills such as copying and pasting objects, formatting text and saving files.

7648 PCTR 40-001

Tuesday, February 22 to March 29
6-8:50 p.m.
5 Sessions
Online Live Zoom
\$205 E. Lopez

ADOBE INDESIGN: LEVEL 1

Learn how to create in the InDesign environment by exploring the elements, setting preferences and defaults and using InDesign Help. Create a document by placing text, graphics and using color swatches. Place Photoshop images in document frames and create layers and export documents to PDF. You will also learn how to prepare a document for commercial printing. You will need a basic knowledge of working in the computer environment such as saving files, using different fonts and inserting text.

7649 PCTR 75-001

Tuesday, April 5 to May 3
6-8:50 p.m.
5 Sessions
\$205 E. Lopez

Featured Online Course **Creating Web Pages**

Gain basic HTML skills to create, design and post your own website. Learn how to plan content and layout, format text and build links. Explore SEO and marketing strategies for your website. <https://bit.ly/creatingwebpages>

Looking for more online courses? Turn to page 17 for additional offerings.

Business, Hospitality and Information Technology

The business world is always improving with new software, systems and ways to be more effective.

These courses will help give you cutting edge skills to make a positive impact on your current and future organizations.

SERVSAFE FOOD PROTECTION MANAGER CERTIFICATION

This course will prepare you to be certified or re-certified through the National Restaurant Association ServSafe Foundation. You will cover all major sanitation points, including how food becomes unsafe, proper precautions, personal hygiene, food contamination, regulations and inspection standards. The nationally recognized ServSafe Exam is given as part of this course. Upon successful completion of the ServSafe Exam, you will receive a copy of your ServSafe Food Protection Manager certificate, which is nationally recognized.

Note: As of January 1, 2018, the Illinois Department of Public Health will no longer require a state FSSMC certificate.

A textbook is required and may be purchased in the CLC Bookstore prior to class. **Note:** It is highly recommended that students read the textbook and review chapter quizzes prior to class in order to prepare for the certification test at the end of the course.

Fascinated by food? Made to multi-task? Check out CLC's Hospitality and Culinary Management Program at www.clcillinois.edu/programs/hcm

Featured Online Course Accounting Fundamentals

Build a foundational understanding of accounting and finance. Learn the basics of double-entry bookkeeping, financial transactions, financial reporting and more.
<https://bit.ly/Accountingfundamentals>

Looking for more online courses? Turn to page 17 for additional offerings.

Real Estate

"I've learned SO much from Wayne and am eager to get through the exam. He is such a great teacher and has the kind of passion for real estate that is contagious and motivating."

– Manuela L.

Not only has Wayne Paprocki achieved financial success working in the real estate industry, he has been nationally recognized for sharing his talents through education and mentorship. His vast experience enables Wayne to teach students everything they could want to know about how to succeed in real estate.

BROKER PRE-LICENSING TOPICS: CLASSROOM

This 60-hour course, with the Broker Pre-Licensing Applied Principles 15-hour course (PRLE 3), fulfills the new education requirements for obtaining an Illinois Real Estate Broker license. You are required to attend all scheduled online sessions which include: introduction to the license law and real property; basics of agency, seller and buyer relationships and counseling; local, state and federal laws effecting real estate; brokerage, marketing and advertising; market analysis and appraisal; financing, contracts, independent contractor and employee status, occupational disciplines and business planning.

3 Sessions
Online Live Zoom
\$199 W. Paprocki

7655 PRLE 3-002

Tuesday and Thursday, May 5-10
5:30-10 p.m.

AND Saturday, May 7
8 a.m. to 2 p.m.

3 Sessions
Southlake Campus, TBA
\$199 W. Paprocki

REAL ESTATE HOME STAGING 101

First impressions matter, especially when it comes to selling real estate property. Through this home staging class, you will learn techniques to prepare your property to be the most desirable listing on the market. Learn what catches a buyer's eye and what will set you apart from the competition. Realtors, homeowners, investors and builders will benefit from our instructor, who has helped homes sell quickly with her unique ideas and strategies.

7656 PRLE 41-001

Wednesday, April 6
1-4 p.m.

1 Session
University Center of Lake County, 312
\$69 J. Delacluyse

BEAUTIFYING A HOME WITH THE RIGHT COLORS

For a home to look its best, it should have paint colors that complement the finishes in the home. Studies have shown that the wrong paint colors are one of the top five reasons that people will not be interested in a home. Many people take a "one color fits all" approach to selecting paint colors, but every home is unique and needs just the right colors to create maximum appeal. Whether you are buying or selling a home or simply redecorating, this course will help you to select paint colors that bring out the best in the home. A book is required and can be purchased from the instructor for \$20 in class.

7657 PRLE 42-001

Wednesday, April 20
1-4 p.m.

1 Session
University Center of Lake County, 312
\$69 J. Delacluyse

Attend a virtual information session to learn about real estate courses on Thursday, January 6 at 6:30 p.m. The session is free, but pre-registration is recommended. Visit www.clcillinois.edu/wpdi/infosessions to pre-register.

A textbook is required for Real Estate Broker courses and may be purchased in the CLC Bookstore prior to class. Visit www.clcillinois.edu/bookstore for hours and information.

Project Management

Have you been putting off obtaining your project management certification?
This is a perfect time to get your certification and we can help you with these online Zoom course options.

PROJECT MANAGEMENT PROFESSIONAL SERIES

Interested in getting your Project Management Professional (PMP®) certification? Completion of these three classes will provide you with the 35 professional development units (PDUs) required to obtain your PMP Certification and prepare you for the PMP exam. With these dynamic courses, taught by Andy Kaufman and Barrett Kaufman, certified PMP trainers, you can make this the year that you become a certified PMP.

Are you a licensed PMP?

PMP holders need to earn 60 professional development units (PDUs) over three years to maintain the credential. If you are looking for a convenient way to refresh your skills and earn PDUs, sign up for Essentials of Project Management and Advanced Project Management and earn 14 PDUs for each section. Call (847) 543-2990 for more information.

Note: Experience, education and exam requirements are needed to obtain PMP certification in addition to the project management education fulfilled by the three courses offered here. For more information, visit <https://bit.ly/3i4A701>

About Your Instructors

PMP® is one of the most sought-after certifications in the world. The training is universal, applicable across industry and location. Just look to the Kaufman family for two prime examples

Andy has managed and led business teams for over thirty years. He works with leaders of multinational corporations and the United Nations to improve their ability to lead and deliver. His son, Barrett, founded a film production studio and has managed projects from pre-production to distribution over the past decade.

Both Barrett and Andy bring their unique experiences to the classroom, preparing individuals for the Project Management Professional and Agile Project Management Certifications. Join them to further your own ability to lead and deliver.

Lean Six Sigma

Attend a virtual information session on Tuesday, January 11 at 6:30 p.m. to learn more about the Lean Six Sigma Certification. The session is free, but pre-registration is recommended. Visit www.clillinois.edu/wpdi/infosessions to pre-register.

LEAN SIX SIGMA CERTIFICATION WORKSHOP

Join us for the Green Belt 2.0® Lean Six Sigma Certification Workshop. This five-week course, taught by certified Black Belts, will give you the thinking, methods and tools needed to solve problems and stay on top of change. Gain access to dozens of videos and hundreds of practice exam questions. The perfect complement to your PMP.

Participants will learn:

- The Green Belt body of knowledge in a form that is immediately useful at work.
- How to spot and solve problems, working in teams and individually.
- The best methods for problem-solving, continual improvement of operations and personnel development.

Class fee includes downloadable digital materials, practice exams, final exam grading, project review and certification diploma. Participants will need a computer with internet access and MS Excel 2010 or newer. Must know Excel basics and charting. Students will meet for the live webinars on the designated dates at the scheduled times.

7638 PPRO 92-001

Tuesday and Thursday, February 1 to March 3 / 6-9:30 p.m. / 10 Sessions / Online Live Zoom
\$1549 F. Pulgar-Vidal

About Your Instructor

In over twenty years of consulting experience, Francisco Pulgar-Vidal has advised executives and frontline associates in effective design, production, sales

and customer support. He has now certified thousands of professionals in organizational methods and is ready to help you improve your work through Lean Six Sigma.

Google Career Certificates

GOOGLE IT SUPPORT CERTIFICATE

This course is part of a new initiative by Google, based on the training that it developed to prepare its own IT support staff. Coursework includes a combination of online lectures, quizzes and hands-on lab activities covering technical support fundamentals, computer networking, operating systems, system administration, IT infrastructure and IT security.

Students will receive an orientation to the course from a local instructor and additional explanations and examples to support on-track learning. Upon completion, students will have access to customized support about employment opportunities in the area.

Note: This is an accelerated version of the Google IT Support Professional program. Students will need to be able to commit 6 to 12 hours each week. Most importantly students should have a foundation of computer knowledge, professional communication skills (both written and verbal) and focused time to commit to the faster pace.

7665 PCTR 91-002
January 18 to May 13
Online 24/7
\$300 K. McGormley

Earn a credential from Google!

In a unique opportunity provided by Google, we are able to offer three new career certificates designed by the company's senior practitioners at an extremely low cost. Each certificate program can be completed in less than 6 months with 10 hours of focused time per week in an entirely online, self-paced environment. Unlike the Google IT Support Certificate, these are not instructor-led. **Note:** If you do not complete the entire certificate in one semester, you must re-enroll in a subsequent semester for continued access.

NEW! GOOGLE DATA ANALYTICS CERTIFICATE

Data analysts prepare, process and analyze data to help inform decisions in industries from business to healthcare to education.

This program prepares students for an entry-level position in the field of data analytics. Develop in-demand data analytics skills using spreadsheets, SQL, R and Tableau. You'll even have the opportunity to complete a case study that you can share with potential employers to showcase your new skill set. No prior experience or specific tools required. All you need is high-school-level math and a curiosity about how things work!

7757 PPRO 89-001
January 18 to May 13
Online 24/7
\$50 K. Kattenbraker

NEW! GOOGLE USER EXPERIENCE (UX) DESIGN CERTIFICATE

UX designers spend their time making, creating and organizing the interfaces people interact with daily, like mobile apps, websites, smartwatches and physical products. Their work ensures that these interfaces are accessible as well as easier and more enjoyable to use.

Explore the design process, including empathizing with users, defining their pain points, coming up with ideas for design solutions, creating wireframes and prototypes and testing designs to get feedback.

No prior experience with design or specific tools required. All you need is an interest in helping to create better experiences for users of apps, websites and physical products.

7758 PCTR 92-001
January 18 to May 13
Online 24/7
\$50 K. Kattenbraker

NEW! GOOGLE PROJECT MANAGEMENT CERTIFICATE

Whether at a small company or a large enterprise, project managers are responsible for delivering projects on time and on budget.

Learn about project management including the project lifecycle, common project management approaches, stakeholder management, influencing, critical thinking in problem solving and effective communication. Successful completion qualifies students for over 100 hours of project management education that apply directly to the Certified Associate in Project Management (CAPM)[®] certification through the Project Management Institute (PMI).

No prior experience or specific knowledge is required. All you need is an interest in solving problems and working with people.

7759 PPRO 84-001
January 18 to May 13
Online 24/7
\$50 K. Kattenbraker

Already leading projects at work?

Are you curious about what training is available beyond the entry-level Google Project Management Certificate? Turn to page 5 to learn about our live, instructor-led Project Management Professional course!

Microsoft Excel

Note: Online Live Zoom Excel courses require a personal laptop or desktop computer and students should be prepared to complete coursework in an online learning lab. Email professionalworkshops@clcillinois.edu or call (847) 543-2990 to discuss if your intended technology will work!

MICROSOFT EXCEL 2019: LEVEL 1

Learn to create a basic worksheet and modify the contents and appearance. You will perform calculations, modify the appearance of data within a worksheet, manage Excel workbooks and print the contents.

7512 PCTR 15-001

Wednesday, February 9
9 a.m. to 5 p.m.
1 Session

Unsure which Microsoft level is right for you? Call (847) 543-2990 or email professionalworkshops@clcillinois.edu for help!
Note: A textbook is required for each Excel class (except when noted) and may be purchased in the CLC Bookstore prior to class. Visit www.clcillinois.edu/bookstore for hours and information.

Interested in IT? Contact CLC's Career and Job Placement Center at cjpc@clcillinois.edu to learn more about the IT pre-apprenticeship bridge program where you could participate in a paid learning experience.

Education and Social Sciences

Designed for those looking to keep up-to-date on current trends in teaching or build on their vocational skills, these courses are perfect for current educators and those that love to learn.

Personal Success Program

The Personal Success Program (PSP) offers a variety of vocational courses to meet the needs of students 18 years and older with mild to moderate cognitive impairment. The program's focus is on gaining vocational skills to acquire entry-level employment.

Each class is led by a content expert who has experience teaching people with disabilities. A special education teacher is present in most classes to provide additional support. The curriculum is designed to be delivered at a level and pace appropriate to each student's needs.

All new students must be interviewed by the program coordinator to determine eligibility prior to enrolling in classes. For a new student interview, please call (847) 543-2990. Visit <https://bit.ly/36viGQU> for course information.

READING FOR THE WORKPLACE 2

This is a continuation class for students who took Reading for the Workplace 1 in the fall semester. Unlock the keys to better reading and spelling to help you be more successful at work and in your daily life. This class will focus on "pil/grim" and "pump/kin" words, vowel teams, r-controlled vowels and homophones. You will learn by seeing, hearing and physically experiencing the concepts. The first part of the class will feature lessons based on the SLANT System for Structured Language Training. The last portion will consist of reading and spelling games and activities to practice the previously taught concepts.

Method of Instruction: Multisensory structured literacy, discussion, interactive activities, computer-based activities. Maximum of 6 students per class.

Prerequisite: Completion of Reading for the Workplace 1 or minimum 6th grade reading decoding level. All students must be assessed by the SLANT Phonics Survey and the Johns Basic Reading Inventory Word Lists before starting the class and at the end of the class.

NEW! CONFLICT RESOLUTION

If you have ever had trouble with friends, family or work situations because of your feelings or being misunderstood, this class will help. Using art, games, music and role plays, we will explore and learn to understand our feelings. We will also find new ways to respond to friends, coworkers and employers through positive social interactions and communication skills. This will be a great opportunity to work on the soft skills that employers are looking for and learn valuable tips for your personal relationships too.

RETAIL SKILLS 2 - CASHIER TRAINING

This course is designed to provide cashier training that recognizes the individual needs and learning pace of each student. The skills will be taught through a combination of instructor-led lecture, hands-on group activities and computer-based cashier training that will provide students with thorough practice in the customer and payment scenarios they will encounter on the job. The training is designed to familiarize students with point-of-sale (POS) technology, payment methods and current processes that they will be expected to know as a cashier in the modern world of retail.

NEW! THE POWER OF ART 2

Students who have completed The Power of Art (Part 1) may continue with Part 2. You have become familiar with several of the great artists. In this next class, the curriculum will focus on the elements and principles of art. These are the basic ingredients in creating any work of art. Each week, we will explore one of these elements and principles, touch on artists who embraced them and complete a related art project.

You may want to pursue a career in creating and selling your art or use art as a calming hobby to offset work responsibilities and life's demands. Art is powerful in reducing anxiety and increasing coping skills. It promotes well-being, improves communication and helps those involved to express feelings and thoughts, also enhancing self-esteem and self-awareness.

"I found I could say things with color & shapes that I couldn't say any other way – things I had no words for." Georgia O'Keefe

Students are required to bring an oversized shirt or paint smock. We will be working with paint, glue, Sharpie markers, scissors etc. It is also recommended to wear old clothes and shoes that one need not worry about becoming a work of art too!

NEW! A TASTE OF ZENTANGLE® ART

No artistic talent is needed to be successful! Would you like to learn a drawing method that people all over the world are learning? If you can hold a pen and write your name, you can learn how to create beautiful artwork using the Zentangle® drawing method. Zentangle®, sometimes called yoga for the brain, is a calming, meditative drawing process that uses pen and ink and simple, repetitive patterns and strokes to create unique pieces of artwork. Each pattern will be broken down and taught step by step in this easy-to-learn drawing method. You will leave each class relaxed and with a beautiful piece of artwork.

POLICE EVIDENCE TECHNICIAN BASIC

Law enforcement officers will develop CSI skills which will give them the knowledge and practical experience to do every forensic and evidence technician investigation in a professional manner. Topics include photography of crime scene and evidence, diagrams and field sketches, crime scene processing, trace evidence, bloodstain evidence, crime scene management and fingerprint processing. Special emphasis will be given in: burglary, theft, fire and arson investigations, death and sexual assault investigations, impression evidence, macro photographic techniques, tool and bite marks, firearms and report writing. Students must bring departmental camera, tripod and flash. This course is certified and reimbursable through the Illinois Law Enforcement Training and Standards Board for Illinois officers. The Evidence Technician class is designed for law enforcement professionals; however, we have opened seats to college students in forensic science studies, high school forensic science teachers and insurance or fire investigators. Requests to attend will be reviewed and approved on a case-by-case basis. Contact (847) 543-2990 or profesionalworkshops@clcillinois.edu to determine eligibility.

COMING IN INTERSESSION 2022! SECURITY OFFICER BASIC TRAINING

Are you interested in finding a career in the security field as an unarmed security guard or would you like to enhance your present job skills and earn state certification? Security officer basic training will prepare new security officers and experienced employees for employment with a certified agency under the Illinois Private Detective, Private Security and Private Alarm Act. This course covers the security code of ethics, public and human relations, Illinois Criminal code, fire and accident prevention, patrol procedures, liabilities, report writing, use of force, fire and safety equipment and search and seizure procedures.

WELDING FOR HOBBYISTS

Take your creativity to the next level! This course allows artists, general fabricators, hobbyists and anyone interested in applying the fundamentals of welding to their projects or profession. Students will practice the four primary processes of arc welding and learn which best suits their desired application. The course will begin with an overview of safety and equipment operation. Each week will feature instruction and practice in each of the four welding disciplines. Students will also learn which equipment and processes are best to continue their practice at home.

Safety equipment is included in the cost of the course. Students must furnish their own pair of work boots and wear appropriate welding work attire, such as long pants, in the lab. Course takes place on the Lake County Tech Campus, located near the Grayslake Campus of CLC.

NEW! WELDING CREDIT FOR PRIOR LEARNING

Your personal and professional experience may be worth college credit in Welding! Have you been working as a welder? Do you have basic experience in shielded metal arc, gas tungsten arc and gas metal arc welding? Are you proficient in blueprint reading in the welding fabrication industry? You could be well on your way to a certificate in Welding!

Before registering for an assessment of your skills, your prior experience will be evaluated to determine if your knowledge aligns with CLC Welding curriculum. You will complete an online module on welding safety before advancing to an examination of your skills through writing and/or demonstration.

Note: Students are able to earn six of the nine possible credit hours towards the Basic Welding Certificate by successfully completing this process and will be awarded with credit for the entire certificate upon completion of the remaining three credit hours.

Interested?

Email professionalworkshops@clcillinois.edu or call (847) 543-2990 to get started!

NEW! Basic Welding Certificate coming in Fall 2022!

Learn welding techniques and develop basic skills that are needed to function as a welder. Students earn the American Welding Society (AWS) Sense Level 1 certificate. Continue adding specialty certificates to complete the Advanced Welding Certificate or even an associate degree!

TRUCK DRIVER TRAINING (CDL)

Get on the Road to Your New Career! By earning your Commercial Driver's License (CDL-A), you can train for a variety of high demand opportunities in Lake County.

Scholarship Opportunity!

Apply for your Truck Driver Training to be **FULLY FUNDED!** Thanks to a generous donation, we are able to offer 25 full-tuition scholarships to qualified Lake County residents. Applicants must meet all requirements for CDL-A licensing and attend information sessions to advance through the selection process.

Attend a virtual information session to get started!

Register at [CDLScholarship.eventbrite.com](https://www.eventbrite.com)

Students will engage in classroom instruction and behind-the-wheel training in this 160-hour basic training course that meets all state and federal requirements. Students will receive the knowledge and support necessary to pass their CDL permit exam during the first week of class. They will then gain the experience and skills required to prepare for the state-issued Commercial Driver's License (CDL) exams, including the pre-test inspection tests, skills tests and road tests. Students will learn CDL laws, use of controls, safe driving techniques and defensive driving. Students will be taught and mentored by experienced trainers, with a low instructor-to-student ratio to provide individualized training and support. Job placement assistance is also included.

Please note: Students must be at least 21 years of age. Prior to enrolling, students will meet with a dedicated staff member to discuss eligibility, financial options and complete necessary paperwork. Students must have a valid Illinois Driver's License Class

"D" or above. They may not have committed a serious traffic violation in a commercial motor vehicle within the past 12 months. Students must provide a copy of their Motor Vehicle Report (MVR) from the Secretary of State's office. Students currently on bond or parole are not eligible. Students must not have any physical limitation that affects their driving ability. Students will be directed on how to complete the required physical and drug tests. Because all CDL testing is conducted in English, students must be able to speak, read, write and understand English. Language support may be available if needed. If you are from Canada or Mexico, you must have permanent residency before you are eligible to get your CLP/CDL. You must also have a social security number.

NLN PRE-ENTRANCE EXAM PREPARATION

Most Health Career programs at the College of Lake County require potential students to take the National League for Nursing (NLN) pre-entrance exam. This preparation course should ideally be taken several months BEFORE you plan to take the exam. Content experts will review basic test-taking strategies, key math concepts, biology, chemistry, physics, reading comprehension and word knowledge skills. The course is designed to help you create a study plan, determine where you should most focus and provide resources to assist in preparing. In addition to access to curated preparation materials, instructors will schedule live Zoom sessions to review challenging material.

Veterinary Assistant Training

If you have a nurturing spirit and a desire to help animals, consider a career in the veterinary field! This course trains students to assist veterinarians and veterinary technicians in providing medical care to companion animals. Students training as veterinary assistants will also learn front office procedures as well as how to assist in examinations, hospital procedures, surgical preparation, and laboratory tests, medical terminology, pharmacology, diagnostic imaging and client relations.

The training will take place through online readings, assignments, and exams with four in-person lab sessions and two in-person exam reviews. This 250-hour NAVTA approved course includes a 100-hour clinical externship experience. This portion requires successful completion of important tasks during the

site's regular business hours. Students must complete a background check at an approved provider in order to participate in the clinical externship portion of the program. Students will also be required to provide proof of current health insurance. Prior felony convictions may prevent participation in the program. The fee for this service is NOT included in the course fee. Join our online Information Session to learn how you will gain valuable experience to prepare you for a Veterinary Assistant role in this changing world!

Course Prerequisites and Special Notes:

A high school diploma or GED is required. In addition, students must have the following minimum abilities: psychomotor skills (eye-hand coordination and finger dexterity), visual acuity (normal or corrected), and the ability to lift 30 pounds in the clinical setting.

Students may be required to meet specific health requirements and drug testing prior to placement in the clinical portion of the course. This is based on the requirements of the externship site and will be determined at placement. Any fees to meet health requirements are NOT included in the course fee.

Broadcast Communications and Voice-overs

All spring voice-over classes will be live online via Zoom. Students will need the following: computer with webcam, headphones (optional) and a valid email address to receive class handouts. Prior to class go online to sign up for a free account at <https://www.audacityteam.org/download/>. Voice-Over: Fundamentals is the prerequisite for all Voice-Over Breakout classes.

VOICE-OVER: INTRODUCTION

Are you curious about the world of voice-over? Learn the craft of voice-over acting from the perspective of an advertising creative director who has hired voice actors for over 30 years. Explore what it takes to produce a demo reel that gets listened to. Our overview will include opportunities in the world of radio and television commercials, audiobooks, industrial films and web productions. This class is recommended prior to taking Voice-Over: Fundamentals.

7522 CPER 23-081

Tuesday, February 15
6:30-9:30 p.m.
1 Session

Creative Arts

Textile Arts

BEGINNER SEWING: SEW HAPPY TOGETHER

Now that you can make masks see what else you can create. Get acquainted with your machine: needles, threading and troubleshooting. Learn how to read a pattern and choose fabric. Enjoy cutting, assembling and completing your own sewing project. A supply list will be provided before the first night of class. Bring your own sewing machine, sharp scissors and a box of pins to the first class. The instructor will discuss additional supplies in class. Class size is limited. Returning students are welcome.

7620 CCRF 31-001

Thursday, January 27 to March 3
6:30-8:30 p.m.
6 Sessions
Grayslake Campus, E124/E125
\$179 M. Wagner-Webb

7621 CCRF 31-002

Tuesday, February 8 to March 15
6:30-8:30 p.m.
6 Sessions
Grayslake Campus, E124/E125
\$179 M. Wagner-Webb

ADVANCED SEWING

In this continuation of beginning sewing, focus on shirt construction and adding sleeves, collars, buttons and buttonholes. Beginning Sewing is not a prerequisite but you should have some sewing experience. Bring your own sewing machine to the first class. A supply list will be provided.

7679 CCRF 59-001

Thursday, March 10 to May 5
6:30-8:30 p.m.
8 Sessions
Grayslake Campus, E124/E125
\$199 M. Wagner-Webb

BEGINNER QUILTING: RIPPED LOG CABIN QUILT

Learn these quilting basics in a fun, introductory class: quilt terminology, fabric selection, color coordination, fabric tearing (grain straightening), log cabin squares, quilt seam allowances, log cabin patterns, batting and backing, tie through and stitch-in-the-ditch. Make a nine-square baby quilt or wall hanging (approximately 47" x 47") as your final project. Bring your own sewing machine to the first class. Supplies will be discussed at the first class and a supply list will be provided.

7622 CCRF 53-001

Tuesday, March 29 to May 3
6:30-8:30 p.m.
6 Sessions
Grayslake Campus, E124/E125
\$179 M. Wagner-Webb

Glassblowing

Glassblowing classes meet at Peter Patterson Glassworks, 888 Tower Road, Unit E, Mundelein. Proper attire is mandatory: long-sleeved cotton shirt, long pants, socks, close-toed shoes, a pair of sunglasses. Course fee covers all materials. Class time may vary depending on the number of students. Pieces need to cool so you will be able to pick them up in three days. Call (847) 543-2980 for more information.

Due to the nature of these classes, Withdrawals must be made at least 48 hours prior to the class start date. If less than 48 hours, no refund will be available.

CREATING A TASTE OF GLASS

Intended for beginners with little to no hot shop experience, this hands-on class will concentrate on making four different round paperweights using various processes and colors: Urchin, pen/ring/note holder, flower and window sparkler.

7695 CCRF 2-031

Tuesday, January 18
6-9 p.m.
1 Session
\$125 P. Patterson

Photography

From the casual photographer to the pro, Personal Enrichment offers photography classes for all levels. Knowledgeable instructors will teach you the fundamentals to advanced techniques.

WELL, SHOOT!

Sometimes you need a little push for inspiration. If your camera work could use a fresh dose of enthusiasm, let professional photographers Mike Caplan and John Petrovic's contagious zeal provide that creative nudge and motivate you to excellence. Through classroom exercises, image critiques and a Saturday field workshop on April 23 at a time and location chosen by the students, learn to maximize your camera skills to produce more striking images. Practice close-up/macro, portraiture, light painting, landscape and food photography. Your new skills will transfer to whatever specialty you like best. Reignite and enjoy your passion for this art form. Class requirements: fundamental knowledge of your camera controls including how to adjust aperture, shutter speed, ISO, WB and focusing.

START USING PHOTOSHOP

Explore the world of creativity that photo editing software opens up to the photographer. Learn to use the basics of Adobe Photoshop and how it can work with other photo editing products. If you have a good understanding of camera functions and experience creating compositionally strong photos, but have little experience with Photoshop, this class is for you. Build a strong foundation for improving your images with Photoshop. Coursework and examples are based on Windows using Photoshop CC software, but Mac users should not have any issues. Bring your laptop (Mac or PC) with Adobe's Photoshop CC or later updates (2014 or newer) installed and functioning. Enjoy practicing the techniques you learn with specific shooting assignments.

**CLC's Community
Travel Program**

CHANGING *Views.*

***Explore the world with
College of Lake County!***

Each year, we offer a tour to some of the world's most exciting places: London, Paris, Tuscany, Greece, Spain, Ireland, and Scotland, to name just a few of our previous tours. Parkland Tours offer you the convenience, safety, and affordability you want for international travel.

Travel with us to England!

We would like to invite you to join us as we travel to England in **June of 2022**. Stroll along the Thames, soak up the majesty of Buckingham Palace, explore Covent Garden, Big Ben, and Trafalgar Square all while taking advantage of the countless charming pubs and eclectic eateries that London has to offer! Explore the history of Windsor Castle and the awe inspiring Stonehenge.

As part of our journey to the greater London area, we can promise an expert tour director and various cultural and historical tours from local guides.

For more information, please contact Personal Enrichment at CPEinfo@clcillinois.edu or (847) 543-2980.

Looking Ahead – Future Trips and Tours

Take your next outing with us! Discover unique places and people. Enjoy interactive, behind-the-scenes access. Choose from the following:

Cathedral Tours

Visit and hear the stories of architectural gems in Chicago and Milwaukee. A delight to anyone interested in architecture, church history, photography and the arts.

Out of the Way Places

Farms, festivals, fairs. Relish new places, experiences and flavors. Leave the driving to us.

Culinary Tours

Explore the cuisine you have heard about or seen on TV. Meet the chefs, enjoy the food and make new foodie friends.

Online Courses for Adults and Youth

Our instructor-led online courses offered through ed2go are informative, fun, convenient and highly interactive. We focus on creating warm, supportive communities for our learners. New course sessions begin monthly. Visit our website for start dates. Complete any of these courses entirely from your home or anywhere, any time.

Learn from the comfort of your home!

- 24-hour access
- Discussion areas
- 6-week format
- Expert instructors

Prices start as low as \$115

Explore the fascinating world of digital photography equipment.

MATH REFRESHER

Gain confidence in your basic math skills and start using math to your advantage.

INTRODUCTION TO ALGEBRA

Understand how algebra is relevant to almost every aspect of your daily life, and become skilled at solving a variety of algebraic problems.

SPEED SPANISH

Learn six easy recipes to glue Spanish words together into sentences, and you'll be engaging in conversational Spanish in no time.

GRAMMAR REFRESHER

Develop your English grammar skills and take your writing and speaking to the next level of excellence in this course.

DISCOVER SIGN LANGUAGE

Discover the fun of learning sign language and using your hands to communicate.

STOCKS, BONDS, AND INVESTING: OH, MY!

Learn how to make wise investment decisions so that you have enough money to live comfortably through your retirement.

INTRODUCTION TO INTERIOR DESIGN

Explore interior design fundamentals as you learn how to transform any room into a beautiful and functional space.

WRITING ESSENTIALS

Master the essentials of writing so you can excel at business communications, express yourself clearly online, and take your creative literary talents to a new level.

BEGINNING WRITER'S WORKSHOP

If you have a story that needs to be written, an online writing workshop is a great place to start. This course will help improve your writing skills and discover new ways to stretch your creative muscles.

Embank

Real life skills classes
for young adults.

Gain critical skills to embark on adulthood and navigate the road ahead with independence. CLC can help you prepare for some of life's most common occurrences and milestones with low-cost, short-term learning experiences that will deliver valuable takeaways.

Embank: Financial Management

MAKE TAX SEASON RELAXING NOT TAXING

Do you panic at the thought of April 15? Take the mystery out of taxes. Find the answers to these and other "taxing" questions: What are taxes, anyway? What documents do I need? How do I organize everything? What are deductions and exemptions? How can I pay fewer taxes? How and where do I file? Do I need a tax accountant? Where can I find help? What tax software should I use? Bring your tax documents to class and organize as you learn. Work on your taxes together the last session of class and then celebrate your success.

Youth in grades 1-8 can explore their dreams in fun, STEAM-based classes taught by experienced educators. Send them to college!

CHANGING *Dreams.*

Explore: Fast-Paced Program for Gifted 7th & 8th Graders

Challenge your gifted seventh or eighth grade student with our exciting and thought-provoking Fast-Paced math and verbal courses. All are designed to engage and equip your bright student for academic success.

Visit <https://learn.clcillinois.edu/clc/FastPaced.jsp> for more program and qualification criteria.

FAST-PACED 7TH AND 8TH GRADE MATH (FALL AND SPRING)

This two-year experience will challenge and help build your student's confidence through math topics not typically included in traditional seventh and eighth grade Algebra or Geometry classes.

FAST-PACED 7TH AND 8TH GRADE VERBAL (FALL AND SPRING)

This two-year experience will challenge and help build your student's confidence in reading, writing, speaking and listening. Verbal topics include Greek and Latin stems, grammar, literature, creative writing, speech writing, oral presentations and digital portfolios. Additional topics include engineering, graphic arts, improv and photography.

Check with your Lake County school district gifted coordinator in January 2022 for information about your fifth grader's eligibility for 2022-2023. Home school, private and parochial school parents may email CPEInfo@clcillinois.edu for information about submitting their children's scores.

Explore: Robotics

4H ROBOTICS SPIN CLUB (GRADES 5-8)

This class is for students interested in an introduction to robotics using the Lego Mindstorm EV3 platform, or equivalent. Students will learn to build and program their robots to meet the challenge put forth by 4H Robotics for this year's competition. Class time will be spent with mostly hands-on building and programming activities under the guidance of the instructor and CLC Engineering Interns. Materials and class fee are free, funded in part by a grant from Baxter International Foundation. The class will work in 4H Spin Club teams, with each team working toward presenting their robot at the 4H Robotics Showcase on April 2nd, 2021, as well as the Maker Faire Lake County on April 9th. Additional information is available by contacting CLC Engineering Department Co-Chair Rob Twardock at rtwardock@clcillinois.edu.

LAKE COUNTY ROBOTICS COMPETITION - TEAM CLC (GRADES 7-12)

This class is for students interested in learning about robotics and introductory programming using the Tetrax robotics platform. Students will participate in the Lake County Robotics Competition (LCRC), a low cost, low barriers introduction to robotics using a team-based competition framework that lasts from February through April 2022. LCRC is an alternative to the more formal competitions such as Vex or First Robotics. LCRC is a logical next step to students aging out of the 4H Robotics Showcase, but open to 7th thru 12th grade students brand new to robotics. Mentoring and technical assistance will be provided by CLC Engineering Interns during Saturday build sessions. The class will culminate with students participating in the LCRC finals at Maker Faire Lake County on April 9th, 2022. Participation and the use of robotics kits are free, funded in part by a grant from Baxter International Foundation. Additional information is available by contacting CLC Engineering Department Co-Chair Rob Twardock at rtwardock@clcillinois.edu.

Engineering Night – February 22, 2022

Ready to explore your education options for an engineering degree? Curious as to what the profession entails? Come to College of Lake County to learn about engineering and computer science and meet with representatives from area engineering schools.

At the event, engineering employers will share their insights on the skill sets they seek in new hires and CLC Engineering professors will present a general overview of the engineering college search process. Students and their parents can attend sessions (30-minutes each) hosted by various four-year engineering programs to learn more about the participating college and university programs. The CLC Engineering Transfer program will also be hosting sessions and will include information on internships, scholarships and guaranteed admission partnerships.

Maker Faire Lake County – April 9, 2022

Maker Faire is a gathering of fascinating, curious people who enjoy learning and who love sharing what they can do. From engineers to artists to scientists to crafters, Maker Faire is a venue for these “makers” to show hobbies, experiments, projects. We call it the Greatest Show (& Tell) on Earth - a family-friendly showcase of invention, creativity, and resourcefulness. Glimpse the future and get inspired!

Admission to the Maker Faire is FREE. So...if you want to learn to 3D model and print, sew something, build a derby car, write Arduino code, make creations with items around home, and have a really great time... *Please note that some Maker Faire activities and workshops will charge for supplies and kits.*

Stay tuned to www.clcillinois.edu/stem for more information on upcoming STEM events.

AGING ON THE SILVER SCREEN

How does the aging process differ in men and women? How do these notable personalities handle the changes of maturity? This series will look at how Hollywood has looked at aging, and it isn't always pretty. We'll look at four films in which the protagonists do not go gently into a good night. You'll see George Burns rob a bank with Art Carney and Lee Strasberg. To win an Oscar, Carney will hit the road with a traveling cat and Burt Lancaster will learn to love lemons. Class content has been modified to be compliant with copyright laws.

Discovery: History

THE PRESIDENT'S CLUB

President's Club lecture program is based on the best selling book (of the same name) by journalist/historians Nancy Gibbs and Michael Duffy. Looking at the relationships (both public and private) between current and former Presidents, it began when Harry Truman called on Herbert Hoover to help him address problems in post-WWII Europe and convince Republicans to support his initiatives. The stories will continue through the complicated working relationship between Bill Clinton and Barack Obama. Perhaps the most surprising story will be the activities and clandestine impact of Richard Nixon after he resigned the Presidency.

MARK: THE FIRST GOSPEL

About AD 70 the writer identified as Mark composed the first gospel, a truncated life of Jesus recalling his message and actions, stressing his suffering and death. Curiously, his account did not mention the resurrection appearances. This discussion will investigate the way Mark collected and ordered his materials to craft a theological image of Jesus the Christ.

Professional Development and Personal Enrichment Online Classes FAQs

1. How will I know that a course will be online?

The course will be listed as an online course when you register and noted in this schedule, as well as on our website. If we need to shift the course to an online format, you will receive an email from CLC staff or your instructor. Check your CLC email regularly for updates. Contact helpdesk@clcillinois.edu for CLC email assistance.

2. What technology will I need to complete an online course?

For all online courses, you will need a reliable internet connection. In addition to a connection and device (it is recommended to have a laptop, desktop or tablet), some courses may require additional software downloaded or a second device to practice on while viewing live instructions. Please check your CLC email regularly for requirements from CLC staff or your instructor.

3. What if I don't have internet at home?

If you are using a computer or device off-campus, use a secure Wi-Fi connection with a strong signal. There are several options for free internet access during this time on the CLC website: www.clcillinois.edu/student-services/tutoring-and-academic-support/succeed/lancers-keep-learning

4. What will an online class be like?

Some courses will be asynchronous, which means you will watch videos and complete activities on your own time while receiving access to an instructor who can answer questions. These courses do not have specific times listed with them and are available 24/7. Other courses are synchronous. In these classes, you and your classmates will be engaged at the same time as the instructor delivers material on a platform like Zoom. There are specific times associated with these courses.

5. Who can help me with technology issues?

CLC is here to help! For technology questions, call (847) 543-4357. Select option #2 and be prepared to answer identity verification questions such as courses taken in previous terms or student ID number. Chat 24/7 is also offered at www.clcillinois.edu/aboutclc/depts/hlp.

6. What information do I need to be successful in my Zoom class?

Instructors may use Zoom, a video conference tool, for class discussions. To get started with Zoom, you'll need an internet connected computer, laptop, tablet or phone (ideally with a microphone) and a "meeting ID number" or link from your instructor. You might also want to use ear buds with a mic if you have them. This can help reduce background noise.

CLC is committed to the safety and security of online instruction and is constantly adapting to offer the best experience for all users. To help ensure security, a password to enter the Zoom session will be provided to assist with these measures.

Directions on use can be found on the CLC website: www.clcillinois.edu/student-services/tutoring-and-academic-support/succeed/lancers-keep-learning.

7. What is important for me to remember for synchronous online classes?

Check your CLC email for details about delivery from your instructor. Take a look at the location and time settings on your computer and email accounts. Since courses are delivered at a specific time, it is important that your device reflects the accurate time zone.

8. Why are some classes moved to an online format, but others are not?

We are committed to providing the best quality instruction that complies with industry standards. Some courses, such as those requiring proctored final exams, are not compatible with our online learning methods at this time.

9. How do I get the book(s) for my class?

Reach out to the CLC Bookstore to inquire about current process. Full contact information can be found at www.clcbkst.com

10. Who can I speak to if I have further questions?

For questions about Professional Development courses, email professionalworkshops@clcillinois.edu or call (847) 543-2990. For questions about Personal Enrichment courses, email cpeinfo@clcillinois.edu or call (847) 543-2980.

Steps to Register in Noncredit Courses

1. Select Course(s)

- Navigate to learn.clcillinois.edu to browse Professional Development and Personal Enrichment courses.
- Click on a course name to see section availability. Select a section to begin the enrollment process.
- If “Add to Cart” is displayed, continue to Step 2: *Create a Noncredit Account and Pay*
- If “Begin Enrollment Process” is displayed, skip to Step 3: *Apply for Admission*

2. Create a Noncredit Account and Pay

- This login information is different from your CLC ID/Login and begins with an “X”
- Complete your personal and contact information. Read and check the box stating you understand the privacy policies.
- Select courses require an application to allow enrollment. Complete the online application and check the email associated with your Noncredit account for enrollment instructions.
- Resume the enrollment process by clicking on the shopping cart icon at the top of the page. Advance the process by clicking “Continue Checkout” after reading page content.
- Enter your credit or debit card information when prompted. All other payment methods need to be processed through a Noncredit office. Contact us at learn.help@clcillinois.edu with questions.
- Once you click “Confirm” you will reach a confirmation page and a receipt will be sent to the email address associated with your Noncredit account.

3. Apply for Admission, Register and Pay (Only required for some courses)

- To get your CLC ID, complete the Student Admission Form at clcillinois.edu/apply
- You will be emailed a CLC myLogin username and temporary password in two separate emails after application processing (usually one business day).

- Contact the ITS Service Desk for login assistance at clcillinois.edu/helpdesk or (847) 543-4357.
- With a CLC ID, enter the myCLC student portal at clcillinois.edu with login information and select “Student Center.”
- Click “Search for Classes” and specify the semester and subject. Select class by clicking on “Shopping Cart,” checking the box next to your class and clicking enroll. For more information, visit clcillinois.edu/admission.
- You will be emailed when your billing statement is available in myCLC. It is the responsibility of the student to meet payment deadlines. Payment plans (when applicable) and payment should be finalized before the first day of class.
- Visit clcillinois.edu/paying-for-college/how-to-pay for more information.

Registration Help

- For Personal Enrichment courses, call (847) 543-2980 or email cpinfo@clcillinois.edu for assistance
- For Professional Development courses, call (847) 543-2990 or email professionalworkshops@clcillinois.edu for assistance
- Hours of operation for both departments are Monday-Friday, 8 a.m. to 4:30 p.m.

Withdrawals and Refunds

- Students who do not attend or do not plan to complete a class they have enrolled in are responsible for officially dropping the class.
- Students who do not attend or stop attending class, but do not officially drop, will remain responsible for all tuition/fees for the class.
- Refund requests will be reviewed and issued to eligible students.
- Unless otherwise noted in the course description, students who enroll through the Noncredit Registration system must drop at least one day before their scheduled class begins for a full refund. Questions for these courses can be addressed to learn.help@clcillinois.edu.
- Courses in myCLC post individual drop deadlines. This can be found in “My Class Schedule” after clicking on the calendar icon next to the class. Further information on drop deadlines for these courses can be addressed to the Office of Registrar and Records at (847) 543-2061.

Senior Citizens

All in-district residents who are 60 years of age or older at the time of registration may receive a 50% tuition discount for select courses through Professional Development. Fees remain unchanged. The only eligible noncredit courses are those that require registration through the myCLC student portal. Contact professionalworkshops@clcillinois.edu or (847) 543-2990 to learn more.

Room Assignment

Check your schedule in learn.clcillinois.edu or the myCLC student portal, depending on registration point.

Clery Act

The College of Lake County is committed to maintaining a safe and secure educational environment. This report is available on the CLC Police Department website at www.clcillinois.edu/clery.

Courses start at various dates throughout the term; some courses begin as late as May. Keep this schedule handy and refer to it through May 2022. The information contained within is accurate as of November 2021, but is subject to change.

Continuing Education Vocational Credits

Continuing Education Vocational Credits do not apply to any degree or certificate program offered at the college in the academic divisions. Vocational credits will not be added to a student’s academic credit hours or included in the GPA. Students receive a grade of P (Pass) or N (No Pass). Call (847) 543-2990 for more information.

Scan the QR code below to read about CLC’s current COVID-19 protocols.

judicialservices@clcillinois.edu

"I just missed being killed by about three seconds."

– Christine Burke praising CLC's defensive driving course.

Christine Burke of Lake Barrington enrolled in our Defensive Driving Course. While driving less than a week later, she used a lesson from the course to narrowly avoid getting smashed broadside by a car that ran a red light.

Burke said that she hesitated at the intersection, recalling a tip she learned in the defensive driving course called "delayed acceleration" waiting two or three seconds before entering an intersection if yours is the first car there. She credits this decision with saving her life.

TRAINING, ASSESSMENT AND DEVELOPMENT FOR LAKE COUNTY EMPLOYERS

INSTRUCTOR-LED | SELF-PACED | BLENDED DELIVERY | COACHING

With a continually changing work environment, preparing your organization with proficiencies is a smart strategy. Whether you want to improve skills or you need to develop a specific group, we have the expertise to provide a solution for small, mid-sized and large organizations.

Upskill Your Business's Workforce

- Identify and close critical skill gaps
- Mobilize talent with the right skills to capitalize on new opportunities
- Upskill and reskill current employees to stay current in their existing roles
- Prepare next generation of workers, managers, leaders and high-potentials
- Customize training crafted to meet your organization's specific needs

WORKFORCE SOLUTIONS

Community colleges are the largest provider of public workforce training in the state. Today's careers require some post-secondary education. However, in 2020 only 52.2 percent of Illinois residents had a college degree or post-secondary credential. CLC ramps up and re-engineers workforce development programs quickly, helping businesses and government stay ahead of the curve.

“Our career pathways train students to get into the workforce quickly, then allow them to come back to CLC and continue to advance their knowledge, skills and ultimately value to companies.”

– Dr. Ali O’Brien, Vice President of Community and Workforce Partnerships

In fiscal year 2021, CLC interacted with nearly 300 unique employers, developing curriculum and apprenticeships, contract training, internships, professional development and job placement for graduating students.

COMMUNITY RESOURCES

CLC supports the community by providing resources and services open to the public across three campuses in Grayslake, Waukegan and Vernon Hills.

- Convenient affordable childcare
- Youth summer camps and youth leadership events
- Library lending services
- Conference and large event spaces
- Fitness center
- Affordable massage therapy and Dental Hygiene Clinic
- Bike-share program
- Prairie Restaurant culinary experiences
- Sustainability and Living Lab Trail
 - CLC is ranked among the top 10 green community colleges in the country.
- Farm market and plant sales
- Maker Faire Lake County and Baxter Innovation Lab
- Cultural Enrichment
 - James Lumber Center for Performing Arts
 - Robert T. Wright Community Gallery of Art
 - Special Events

ECRWSS
