Talent Assessment and Development for Lake County Employers

Employer questions that TAD answers:

- What are the skill gaps and training needs of each employee?
- Where can we find vetted training resources to close skill gaps?
- Where should we concentrate our limited time and resources for staff training?
- How can we efficiently and effectively develop and upskill our workers?

TAD is an affordable turn-key, cloud-based integrated system that identifies skill gaps and talent development solutions to employers of all sizes.

- Unlimited 360° competency-based assessments
- prebuilt job models
- Robust reporting

- Individual development planning
- Integrated training library
- Much more
